Javier Moreno

Senior Software Engineer

jjmv.97@hotmail.com | 8114975656 | Monterrey, Mexico

PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years turning ideas into production-ready applications. I've built design systems that scaled across teams, migrated legacy codebases to modern frameworks, and shipped features used by thousands. I bring deep expertise in React, TypeScript, and Node.js plus the soft skills to collaborate effectively across teams.

EXPERIENCE

Senior Software Engineer
Intersog | Mar 2022 - Present

- Joined Eureeka (later acquired by ZenBusiness), a platform helping small businesses grow.
- Built real-time chat functionality and a community dashboard for customers.
- Post-acquisition at ZenBusiness: developed a personalization engine that recommends products based on user context, built the company formation flow for new businesses, and created educational pages for entrepreneurs.
- Implemented A/B testing with LaunchDarkly and contributed to error standardization efforts for improved observability and alerting.

Senior Software Engineer
Cognizant | Dec 2023 - Mar 2026

- Contributed to large-scale Gatsby to Next.js migrations for MGM Resorts and eHealth Insurance, improving SEO rankings, page performance, and reducing build times.
- Worked in small teams (up to 5 engineers) managing CI/CD pipelines with Jenkins for automated testing and deployments.
- Built reusable components for WordPress-based applications with optimized loading times.
- Improved code quality through refactoring, documentation, and peer reviews.

Web UI Developer
Globant | Mar 2021 - Mar 2022

- Architected and built a Design System from scratch using React, TypeScript, and Material UI, with full unit test coverage.
- Created CI/CD pipelines to automate releases for the component library.
- Developed a CRA template with pre-configured authentication (Okta), testing setup, and the component libraryenabling other teams to bootstrap new projects instantly.
- Provided ongoing support to multiple development teams across the organization.

Web Engineer
Definity First | Mar 2019 - Mar 2021

- Built SharePoint intranet solutions for prestigious institutions including Caltech, Harvard, NYU, Washington University, and LA Philharmonic.
- Developed custom WebParts using React and SPFx for document management, HR portals, carousels, and employee directories.
- Created API integrations with PnPJs and automated business workflows using PowerApps and Power Automate.

Web Developer
Business Management Task | Jan 2018 - Mar 2019

- Contributed to a full-stack ERP platform (Meteor/MongoDB) used by local businesses and manufacturing companies for order tracking, inventory, and accounting.
- Built dashboards, automated reports, and receipt generation features.
- Helped eliminate manual processes, enabling clients to generate reports in seconds instead of hours.

EDUCATION

Bachelor's Degree in Software Engineering
Universidad Autonóma de Nuevo León | Aug 2014 - Jun 2019

SKILLS

Claude / Claude Code, GraphQL, HTML, JavaScript, Jest, Material UI, NodeJS, PostgreSQL, React, React Router, Tailwind, TypeScript

LANGUAGES

Spanish (Native), English (Advanced)
